

FISCAL NOTE

HB 3253 - SB 3292

March 3, 2004

SUMMARY OF BILL: Specifies that the current safety belt law does not apply to persons driving a motor vehicle in a parade or other celebratory event provided such vehicle does not exceed 20 miles per hour. Requires there be at least one sign within five miles of the state boundary on each interstate coming into Tennessee stating that Tennessee law requires passengers in a motor vehicle to wear safety belts.

ESTIMATED FISCAL IMPACT:

Decrease State Revenues - Not Significant

Decrease Local Govt. Revenues - Not Significant

Estimate assumes:

- few people are cited for failure to wear a safety belt in a parade. Any decrease in revenues from fines is estimated to be not significant.
- the required signs are already located within five miles of the state line so no additional signs would be required.

CERTIFICATION:

This is to duly certify that the information contained herein is true and correct to the best of my knowledge.
